## **DETAILED ACTION**

### ***Response to Amendment***

1. Applicant's amendment filed October 26, 2007, has been entered. Claim 11 has been amended as requested. Claims 1-10, 13, 15, 17, and 19 have been cancelled. Thus, the pending claims are 11, 12, 14, 16, 18, and 20-33.
2. Said amendment is sufficient to withdraw the art rejection set forth in section 5 of the last Office Action (Non-Final Rejection mailed 06/01/07). Specifically, applicant has amended the claims to limit the recited method to including a stretching step with a pair of rollers running at different speeds in an S-wrap configuration. As noted by applicant in the Remark, pages 5-6, the prior art of record fails to teach or suggest said stretching step with rollers in an S-wrap configuration. Therefore, the prior art rejection based upon Watanabe (JP 10-273873) in view of Schneider (US 4,497,097) is hereby withdrawn.

### ***Claim Objections***

3. Claim 11 is objected to because of the following informalities: In line 8 of the claim, "spunbonded" is misspelled as "spundbonded." Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 11, 12, 14, 16, 18, and 20-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
6. Claim 11 is indefinite for the recitation of the phrase “the spunbonded nonwoven exhibiting no more than 5% shrinkage during manufacture.” It is unclear what applicant intends to encompass by “during manufacture.” Does applicant mean the claimed shrinkage is measured during the process steps claimed (i.e., bonding fibers or filaments and stretching between needling stages)? Or, as suggested in the specification, page 4, line 16, does applicant intend to encompass shrinkage of the spunbonded nonwoven in subsequent manufacturing steps of making a carpet? Claims 12, 14, 16, 18, and 20-33 are rejected for their dependency upon claim 11.

### ***Conclusion***

7. The art made of record and not relied upon is considered pertinent to applicant's disclosure.
8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
9. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
